No.217, Barani Street, 12 Ward, South Okkalapa Township, Yangon

## PROFESSIONAL SUMMARY

Results-driven Developer with hands-on experience building scalable web applications using React, Next.js, Node.js, and PostgreSQL. Skilled in developing secure, role-based access control systems, integrating RESTful APIs, and delivering production-ready solutions. Strong focus on clean architecture, responsive design, and performance optimization. Passionate about building impactful software while continuously expanding technical expertise.

---

## WORK EXPERIENCES

### Junior Developer – Connected Group (Yangon)

Dec 2025 – Present

- Built reusable React components and admin dashboards for SaaS platforms.
- Implemented JWT authentication and role-based access systems.
- Integrated RESTful APIs and coordinated with backend teams to ensure reliable data exchange.
- Supported production deployments, resolved incidents, and maintained high system availability.
- Collaborated with designers and backend developers to deliver features on schedule.

### Full Stack Developer – MMSIT (Yangon)

Oct 2024 – Dec 2025

1year-6months

- Built full-stack web applications using React, Next.js, and Node.js.
- Designed reusable UI components with Tailwind CSS and optimized frontend performance.
- Developed authentication systems and secure REST API integrations.
- Implemented CRUD functionality and managed relational/non-relational databases (PostgreSQL, MongoDB).
- Deployed applications to Vercel and VPS environments with Git-based collaboration workflows.

### Business Development Executive- Quibit

Jan 2026 – Present(Part-Time)

- Generated leads through LinkedIn and direct outreach.
  - Identified software development and outsourcing opportunities.
  - Engaged with startups and technology companies to explore partnerships.
  - Coordinated project requirements between clients and development teams.
  - Assisted in project estimation, proposal preparation, and delivery planning.
  - Managed prospect follow-ups and client communications.
  - Supported business growth through strategic partnership development.
-

## EDUCATION

Space International College, Vietnam

Freshman, Software Engineering (2025 – Mar 2026 )

Dagon University

Chemistry (2023 – 2024)

## SKILLS

React, Next.js, Node.js, Express, Python, Fastapi, Nestjs, Tanstack Query, PostgreSQL, MongoDB, Supabase, Tailwind CSS, Git, Vercel, TypeScript, REST APIs, JWT, Zustand, React Native, Expo, Prisma, Vue, React Router DOM, SweetAlert2, React Hot Toast

## LANGUAGES

Japanese (Proficient, n3 passed ), English (Proficient)

## PROJECTS

### AI Resume Analyzer — Next.js, React, TypeScript, AI, Node.js

- Built an AI-powered resume analysis platform that provides actionable feedback on resumes.
- Implemented REST API integration and responsive frontend UI.
- Deployed frontend and backend for production use.

Live - <https://ai-resume-analyzer-ashy-five.vercel.app/>

Github - <https://github.com/Khant-Min-Htut/ai-resume-analyzer>

### Meeting Room Booking System — React, NestJS, PostgreSQL

- Developed a full-stack booking system for managing meeting rooms and reservations.
- Implemented authentication, room management, and booking workflows.
- Deployed the application using Vercel and Render.

Live - <https://meeting-room-booking-system-lilac.vercel.app/>

Github - <https://github.com/Khant-Min-Htut/meeting-room-booking-system>

### Plant Ventary — Next.js, Node.js, PostgreSQL/Prisma

- Built an inventory management application for organizing and tracking plant collections.
- Developed responsive interfaces and backend functionality.
- Implemented database-driven CRUD operations.
